SAMSUNG

SAMSUNG recommends Windows® 7.

Now it's easy to look good on the go – but still get things done – with the Samsung Notebook Series 3 300U1A. Weighing just 1.21kg*¹ and only the height of a £1 or €1 coin, its thin and light, design also features a choice of vivid colors and a slim bezel display for maximum portability. So, even though it's easy to carry and fits in a small bag, you can still enjoy a screen size that you'd expect on a much larger notebook – especially as it has an anti-reflective display that ensures brilliant image clarity and text legibility even in sunlight. And it's also big on performance, providing an extensive battery life of up to 9.5 hours*², as well as the optimized performance of an Intel® Core™ Ultra Low Voltage (ULV) processor, Windows® 7 Home Premium and Samsung's unique Fast Start technology. So with the 300U1A you need never miss a thing.

Why Samsung PC?

A TRUSTED BRAND

Through a dedication to quality, performance, technology, design and service, Samsung has risen to become one of the fastest growing PC vendors in the world. This has helped Samsung become the largest electronics company in the world.

BETTER PERFORMANCE & BETTER TECHNOLOGY

Samsung PC products are continually celebrated by the world's media for outstanding performance – including "Product of the Year 2009" awards from Wired (US), Mikro PC (Finland), and PC World (China & Poland).

UNRIVALLED PRODUCT QUALITY

We manufacture the vast majority of our laptop components, so we can be certain they are world class. Our vigorous quality assurance program and ISO standard manufacturing process, also ensure that only the best products make it through to the customer.

DESIGNED TO TURN HEADS

Through worldwide design centers and partnerships with product designers, we have created laptops with style that have won prestigious design awards such as the iF and IDEA Design awards and the Good Design 2009 "Gold Award".

WORRY-FREE SERVICE

We're committed to providing the best, most timely customer service in the industry and proud to be recognized as the leader in customer service satisfaction (ranked #1 for customer satisfaction in the notebook PC category by C'T Magazine Germany in May2010).

Works the way you want.

Windows® 7

SAMSUNG recommends Windows® 7.

Outstanding style & mobility

With its ultra portable and stylish design the 300U1A is always ready for any-time, anywhere ultra mobile computing.

Slim bezel display

An ultra portable design features a slim bezel display that's as thin as a finger. It's much smaller and lighter, without compromising on screen size, so it's easy to take with you when you're out and about. And you'll always look good on the move with its premium elegant styling.

Vividly stylish design

Be a real style leader and stand out from the crowd with a truly individual color. The fashionable, modern design is accentuated with a stylish finish that's available in a choice of vivid colors (black, silver, pink, blue and purple) that simply demand attention.

Easily much thinner

The ultra thin and compact design is the same height as a £1 or €1 coin. So it looks extremely elegant and is easy to take almost anywhere as it's comfortable to carry and will quickly slip into almost any bag, case or luggage.

Up to 9.5 hours battery life

Get more done on the move with a battery life of 9.5 hours^{*2}, so you don't need to carry your charger. Samsung's intelligent charging technology, PowerPlus, also keep 80% battery capacity for up to 1,000 recharges – 3x longer than a typical battery. So it's more economical and environmentally friendly as fewer batteries need to be replaced.

1.21kg lightweight

Weighing 1.21kg^{*1}, the ultra lightweight design provides maximum portability as it's easy to carry in one hand and fits in a small bag. But it still incorporates comprehensive functionality for optimum performance on the move. So you can carry less, but do more.

Enhanced usability

The 300U1A is designed to help you get more done on the move with its effortless usability and outstanding reliability – no matter what life throws at you.

Anti-reflective display

The anti-reflective 11.6" HD LED display lets you enjoy images that are fine-tuned with the sharpest details and boldest colors, even when you're outdoors in sunlight. Its matt surface has less mirror effect, so you can use it for longer without your eyes getting tired. And it's more resistant to micro scratches from sand or small particles.

The key to easier use

A high key, island-type keyboard makes typing easier, so you get more done and waste less time correcting errors. Its ergonomic, and stylish design features isolated keys with optimized spacing for maximum comfort. It's also cleaner and much more hygienic as dirt cannot be trapped between the keys.

Scratch-resistant casing

Life on the move is challenging, so notebooks can easily become scratched even after a small amount of use. To protect against the risk of everyday bumps and knocks a robust Samsung Duracase casing, with a special scratch-resistant surface, will keep your notebook looking stylish and like new for longer.

Uncompromising performance

The 300U1A's high performance processor and innovative Fast Start technology make it the ideal choice if you need to get things done fast.

Optimum performance and power

The latest Intel® Core™ Ultra Low Voltage (ULV) processor provides the optimum balance of performance and energy efficiency. Unlike a net-book, it allows you to create rich media content, play intensive games, or multitask with applications like Microsoft Office. It also uses significantly less power for a much longer battery life.

Fast Start

Instant on - get started within a few seconds of opening the display or pressing the power button. An innovative hybrid sleep mode combines the fast start-up of sleep with the stability of hibernation, so you don't have to wait 30-60 seconds for the notebook to boot-up.

Peace of mind

The 300U1A is the ideal choice if you like to play things safe, as it is designed to protect you and your data from the risks of everyday life.

Quality you can trust

Samsung manufactures up to 75% of our notebook components, using stringent quality control to ensure maximum performance and reliability. We've been voted "What Laptop" Best Laptop Manufacturer of the year, No.1 in "PC Pro" UK Customer Satisfaction (2007-2010), No.1 for Service Quality in Germany (2008-10) and Best Product of the year in China.

International warranty service

Samsung's award-winning warranty service^{*3} provides a fast track collection repair and return service in order to minimize disruption and get you going again as quickly as possible.

*1 Based on 4 cell battery.

*2 Battery life based on BatteryMark test scores that will vary based on configuration (8850mAh/66Wh).

*3 Warranty service availability and response times may vary from country to country and may also be subject to registration requirements in the country of purchase.
